Phone: +84852509679

Experience

- | | |
|-----------------|---|
| 05/2023–Present | AI Engineer, FPT Smart Cloud

Developed FPT AI Agents — a comprehensive platform for multi-lingual AI Agent development, powered by Generative AI and enterprise knowledge to create and operate AI Agents for customer service, sales, training, and business automation.
Main tasks: <ul style="list-style-type: none">• Harness Engineering: Built the agent orchestration engine handling tool dispatch, context management, and execution flow for multi-step AI workflows.• Developed AI models and core engines: Retrieval models, LLMs, RAG Engine. |
| 10/2021–05/2023 | AI Engineer, VNPT-AI

Developed VNPT SmartBot — an AI assistant platform for customer service, powered by Generative AI to build chatbots, voicebots, and virtual assistants with advanced Vietnamese NLP capabilities.
Main tasks: <ul style="list-style-type: none">• Developed information retrieval models.• Conducted research on intent classification and slot filling. |

Education

- | | |
|-----------|---|
| 2017–2022 | B.Sc. in Engineering, Posts and Telecommunications Institute of Technology (PTIT) — Hanoi, Vietnam

Major: Information Technology
Supervisor: Dr. Ngo Xuan Bach (Associate Professor) (homepage)
GPA: 3.3/4.0 |
|-----------|---|

Honors & Awards

- | | |
|---------|--|
| 10/2025 | 3rd prize in Vietnamese Legal Document Retrieval Competition at VLSP 2025

Our solution demonstrates high efficiency and effectiveness for Vietnamese legal document retrieval. |
| 08/2025 | 2nd prize in FPT Smart Cloud AI Hackathon 2025 (AIVerse Hackathon)

Built an AI Agent System for document analysis and reporting. |
| 08/2024 | Champion in FPT Smart Cloud AI Hackathon 2024 (We Are Hackathon)

Built a Hybrid Labeling Platform powered by LLMs. |
| 2023 | 2nd prize in VNPT.AI Hackathon 2023

Built an employee behavior analysis and reporting system. |
| 2020 | 1st prize in ACM ICPC – PTIT 2020, Issued by Posts and Telecommunications Institute of Technology |
| 2018 | 1st prize in MATH OLYMPIAD FOR STUDENTS, Issued by Vietnamese Mathematical Society , Vietnamese Unions Of Science And Technology Associations |

Publications

- 2025 **Xuan-Hieu Duong**, Thanh-Dat Do. *A Simple Two-Stage Retrieval Framework for Vietnamese Legal Document Retrieval*. Proceedings of the 11th Workshop on Vietnamese Language and Speech Processing (VLSP), 2025. [paper](#)
- 2023 Nguyen Anh Tu, **Duong Xuan Hieu**, Tu Minh Phuong, Ngo Xuan Bach. *A Bidirectional Joint Model for Spoken Language Understanding*. Proceedings of the 48th IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP), Greece, June 2023. [paper](#)

Skills

Programming Languages: Python, Java, JavaScript, C++

AI Frameworks: LangChain, LangGraph, Langfuse, PyTorch, TensorFlow

Coding AI Tools: Claude Code, Cursor

Certificates

[Generative AI with Large Language Models](#) — AWS & DeepLearning.AI

[Generative AI for Software Development](#) — DeepLearning.AI

[Machine Learning in Production](#) — DeepLearning.AI

[Machine Learning Specialization](#) — Stanford Online & DeepLearning.AI

[Deep Learning Specialization](#) — DeepLearning.AI
